Vinegar Hill Music Theatre
53 Old Post Road
Arundel, ME 04046

Dear Sarah,

Here are the architectural drawings for the Ringlock Scaffold stage installed on property at Vinegar Hill. I've also included the specifications manual for the individual components for reference.

While I believe the weight and low drag design will be safe from excessive winds, I have suggested that 1000lb concrete blocks be placed at 4 corners and connected to the top most vertical standard on each corner for added safety.

3ft railings are present on 3 sides as well as a set of stairs with hand rails leading up to the stage.

Please let me know if you have any further questions.

Take care.

Jack
